

Neuropsychiatric Symptoms in Alzheimer's Disease

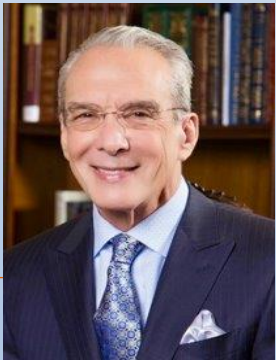

Thursday April 8th 2021 at 12 PM EST

WEBINAR

Please join us for this discussion providing an overview of neuropsychiatric symptoms in Alzheimer's disease, with a closer look at agitation and psychosis. Our speakers will discuss the importance of neuropsychiatric symptoms in Alzheimer's disease, including associated neuroanatomical and neurochemical changes, and symptom management through nonpharmacological and pharmacological means.

Speakers are paid consultants of Otsuka Pharmaceutical Development & Commercialization, Inc.

Jeffrey Cummings MD, ScD
Speaker
